

MARQUETTE UNIVERSITY

FRESHMAN APPLICATION SUPPLEMENT

Personal Information

Name: _____ Date of Birth: _____

Enrollment Status

First. Let us know if you are interested in any of our special admission programs or pre-professional programs.

A. Pre-professional studies. Indicate your intention to pursue professional school upon graduation from Marquette using the boxes below. Pre-professional programs are not majors. You can choose from any major offered at Marquette if you select a pre-professional interest.

- Pre-dental studies Pre-law studies Pre-medical studies Other pre-professional

B. Special admission programs. Indicate your interest in any of the special admission programs below.

- Athletic Training. This program is available to freshman applicants only.
- Doctor of Physical Therapy. Because you are admitted into an undergraduate college before starting the DPT program, please choose a first- and second-choice major from the list of majors. Although you may choose any undergraduate major, those marked with * are recommended for the DPT program; choosing any other major may extend the time of your program.
- Master of Physician Assistant Studies. If you are planning to apply into the Master of Physician Assistant Studies program during your sophomore year, you must indicate biomedical sciences BISC-BS as your first choice major. You may indicate any option as your second choice.

Second. Indicate your major preference. While you aren't formally declaring a major at this point (that happens after you enroll at Marquette), you can tell us your top two major choices. Use the letter code from the list of majors on the next page of this supplement. Admission is made directly into one of Marquette's seven colleges. You will be considered for the college(s) appropriate to the majors you select.

MAJOR 1

----- - -----

MAJOR 2

----- - -----

Applicants for Athletic Training and Physical Therapy

In addition to your regular Marquette application essay, all freshman athletic training and physical therapy applicants must answer the following question. Your essay is an important part of the application for athletic training and physical therapy. The admissions committee will carefully review your response; if you are applying for both athletic training and physical therapy, be sure to address your interests and experiences in both areas. Please limit your response to about 300 words. (Include your name and date of birth at the top of the page.)

Why are you interested in athletic training and/or physical therapy as a profession, and what experiences have led you to this interest?

Alumni Endorsement

If you have been given an alumni endorsement coupon, please enter the information below:

* A suggested major for applicants to the physical therapy program. These majors incorporate the program's pre-requisite credits into their curricula and offer the appropriate academic preparation for a career in physical therapy.

Freshman applicants are offered direct entry into the professional phase of the program upon admission into physical therapy. Transfer students for the undergraduate phase must first transfer into Marquette and then apply into this program (a limited number of spaces are available). Transfer applicants for the graduate/professional phase of this program should request an application from the Department of Physical Therapy at (414) 288-7161.
